Skin Consultation

(professional analysis)

A comprehensive professional skin analysis designed to assess your skin condition, concerns, current routine, and long-term goals. Your therapist will create a personalised treatment and homecare plan tailored specifically to your skin's needs. Redeemable on all recommended skincare purchases.

Skin Consultation

45 min

R 350

Microneedling Collagen Induction Therapy

(regenerative)

Clinically advanced regenerative treatment to stimulate collagen, refine pores, soften scarring and restore radiance.

Full Face

Focused microneedling facial to improve texture, tone, and fine lines.

1 hr 30 min

R 1 200

Face & Neck

Microneedling treatment targeting the face and neck to stimulate collagen production.

1 hr 45 min

R 1 500

Face, Neck & Décolleté

Full microneedling treatment covering face, neck, and décolleté for overall skin renewal.

2 hrs 15 min

R 1 900

Hands

Exosome Regenerative Therapy Add-On

Boost your microneedling results with exosome therapy for accelerated skin regeneration.

from R 300

Hyaluronic Acid Recovery Sheet Mask

Soothing post-treatment hyaluronic acid mask to support recovery and boost hydration.

R 280

Cosmetic Skin Lesion Removal

(non-surgical)

Cosmetic Skin Lesion Removal

Safe and precise non-surgical cosmetic removal of superficial benign skin imperfections including skin tags, milia, sunspots and selected superficial lesions.

5 min

R 550

Corrective Peel Collection

(resurfacing)

Skin Barrier Correction Peel - Mandelic Peel

A gentle corrective peel designed to calm inflammation, strengthen the skin barrier, refine congestion, and prepare the skin for advanced corrective treatments. This is the ideal starting point for compromised, sensitive, or reactive skin.

60 min

R 650

Dermaclinical Gloss Peel

A gentle resurfacing peel designed to refine texture, restore radiance, and brighten dull, uneven skin tone. Ideal for an instant glow while maintaining full skin barrier integrity - perfect as a maintenance or introductory corrective treatment.

60 min

R 750

Dermaclinical Transformative Peel

A targeted corrective peel for pigmentation, congestion, post-acne marks, and uneven skin tone. Either TransClear or TransBright is selected on the day of treatment based on your skin condition, barrier status, and active concerns - ensuring a fully customised clinical approach.

45 min

R 800

Dermaclinical Yellow Peel

An advanced corrective peel designed for more complex skin concerns including acne scarring, pigmentation, melasma, and advanced textural irregularities. This intensive treatment works at a deeper level of skin renewal and is only introduced once the skin barrier has been properly prepared through earlier corrective phases.

45 min

R 1 650

Corrective Peel Packages

(series)

Mandelic Skin Reset Series

A restorative maintenance programme designed to keep the skin balanced, clear, and resilient between corrective treatments.

R 2 760

This series of 5 x Mandelic peels supports ongoing barrier health, reduces congestion, and maintains a calm, refined complexion. Includes a Wesson barrier treatment cream.

Transformative Peel Series

A fully customised, progressive peel programme designed for structured skin transformation. Each session is selected between TransClear or TransBright Dermaclinical peels depending on your skin on the day, ensuring precise, intentional correction throughout.

R 3 499

This series of 5 x Trans peels allows for cumulative results, improved skin tolerance, and long-term barrier stability through layered clinical correction rather than isolated treatments.

Important Information

(terms & policies)

Laser Hair Removal: To achieve optimal, long-lasting results, laser hair removal treatments are performed every 4 weeks. A full course typically requires 10-12 sessions, depending on your hair growth cycle, hormonal factors, and treatment area.

Before & Between Sessions

- Please shave the treatment area 24 hours before your appointment.
- Do not wax, pluck, thread, epilate, or use hair removal creams between sessions. Shaving is the only permitted form of hair removal during your treatment journey.
- Avoid excessive sun exposure and tanning before and after treatment, as this may increase skin sensitivity and pigmentation risk.
- Inform your therapist of any medications, medical conditions, allergies, or recent skin procedures before your appointment.
- Please notify your therapist if you are pregnant or breastfeeding.

Skin Treatment Pre & Post Care: To ensure safe and effective treatment results, please follow the below guidelines carefully.

- Discontinue active skincare products (including retinol, vitamin C, AHAs, BHAs, and exfoliating acids) 3 days before and after treatment.
- Avoid waxing, shaving, or any aggressive hair removal on the treatment area for 7 days before and after your procedure unless otherwise advised.
- If you have recently had Botox or dermal fillers, please wait at least 2 weeks before scheduling microneedling or advanced skin treatments.
- Limit direct sun exposure before and after treatment to minimise irritation and reduce the risk of pigmentation.
- Inform your therapist if you have a history of facial or nasal herpes/cold sores, as preventative antiviral medication may be recommended.
- Please disclose all medications, allergies, skin conditions, or recent aesthetic procedures prior to treatment.
- Notify your therapist if you are pregnant or breastfeeding.
- If you have any concerns regarding your skin health or suitability for treatment, please communicate them before your appointment.

Cancellation: A 24-hour cancellation notice is required. Late cancellations may incur a charge.
